

Endorsements for Pilgrim

The *Pilgrim* program is an exciting and highly accessible set of educational resources for Episcopalians and other Christians, wherever they are in their spiritual journey. Church leaders, take note, these helpful courses are well worth using in your congregations

—**The Rev. Canon C. K. Robertson, Ph.D.** Canon to the Presiding Bishop for Ministry Beyond the Episcopal Church

Pilgrim: A Course for the Christian Journey, a 21st century resource for those who are considering becoming Episcopalians or for Episcopalians deepening their commitment to God and to the Episcopal Church, is an exceptional comprehensive study. The Pilgrim series Leader's Guide is clear in explaining the how to's as well as the nuances of leading a group. "The Commandments: How do Christians behave?" is a beautifully written study teaching the history of The Commandments in the context of living faithful lives today. I highly recommend the Pilgrim Series for adult confirmation/journey classes, or for anyone seeking to better understand what we, as Episcopalians, believe.

Pilgrim is a welcome resource for discipleship formation in TEC, presenting the foundations of the Christian faith in a format that is accessible and that encourages reflection and discussion. The Commandments segment provides a rich theological, historical and biblical background for breaking open the Decalogue and making it a useful tool for the spiritual journey. The companion Leader's Guide is user-friendly and will support group leaders at any level of experience in leading fruitful discussions.
